

## STARTSENTRY

24 V, 123 kJ ULTRACAPACITOR FOR BUS AND COACH

## THE ULTRACAPACITOR THAT WON'T LEAVE YOU IN THE COLD.

You can rely on Vanner's StartSentry Ultracapacitor for fast, reliable starting in cold and hot climates. Easy to install and low maintenance, the StartSentry works in parallel to effectively take over all heavy-duty engine cranking on every start. Unlike the chemical reaction within lead-acid batteries, the StartSentry uses an electrostatic field to store and deliver a quick boost of power – even if the batteries are dead from the cold or parasitic drain. This gives the driver the confidence to shut down and restart their bus throughout the day, which greatly reduces idle emissions, fuel consumption, starter stress, and the need for costly jump-start service calls. StartSentry is designed to ensure maintenance-free performance over the life of the vehicle.

Don't get stranded with a dead battery again. Call us at 800-AC POWER (227-6937), or visit vanner.com to learn more.

## STARTSENTRY BENEFITS

- ELIMINATES COSTLY DEAD BATTERY JUMP-STARTS
- SAVES FUEL AND REDUCES EMISSIONS
- SELF-CONTAINED AND EASY TO INSTALL
- BUILT-IN OVERCHARGE CIRCUIT PROTECTION
- WORKS IN EXTREME TEMPERATURES
- EXTENDS BATTERY AND STARTER LIFE
- 24 V 123 KJ OF DEAD BATTERY STARTING POWER
- **IDEAL FOR BUSES, EMERGENCY, AND OFF-ROAD VEHICLES**
