- NOTES:**
- 1) The purpose of this document is to detail an intelligent part numbering scheme for 90/91 series converter.
 - 2) The base software for all 90/91 series equalizers is the same.
 - 3) The appropriate battery profile and battery configuration is loaded based on customer requirements.
 - 4) There are several user configurable settings in an 90/91 series equalizer. If a customer wishes to change any of the settings from the factory recommended default, a two character alpha suffix may be assigned to distinguish it from a base model.
